

Monitor development efforts by feature and team

Use case

If you want to **monitor development efforts by feature and team**, you can quickly configure a **Two dimensional widget** to show these metrics with sumUp for monday.com.

Configuration

1

Add the **Two dimensional widget** to your dashboard via + **Add widget** > **Apps** > **Installed Apps**.

2

Select your **effort** column under **Which column do you want to display?**

3

Select your **feature** column under **How to group items on x-axis?**

4

Select your **team** column under **How to group items on y-axis?**

5

Optionally configure **Additional options** to control the **number of rows** per page and the **number of minutes** between widget **updates**.
