

Number of sub-tasks based on status and issue type

Use case

Return the **number of sub-tasks in the Done or Complete statuses** of the Sub-task issue type.

Expression

Create and configure a Smart field using this expression in **General** parsing mode:

```
%{count(filterByIssueType(filterByStatus(subtasks(), "Done, Completed"), "Sub-task, Sub-story"))}
```

Please, note that by changing "Done, Completed" into other statuses and "Sub-task, Sub-story" into other issue types, you can adapt this use case for your needs.

Used parser functions

- `count()`
- `filterByIssueType()`
- `filterByStatus()`
- `subtasks()`
