

Time since creation

Use case

Return the **days** that have passed **since the creation** of the current issue.

Expression

Create and configure a Smart field using this expression in **General** parsing mode:

```
%{floor(({system.currentDateTime} - {issue.created})/DAY)}
```

The duration can be retuned in years, weeks, days, hours or minutes if the DAY keyword is replaced in the above expression with the [corresponding time constant](#).

Used parser functions

- [floor\(\)](#)
