

Work Log Report gadget

What does this gadget offer?

The **Work Log Report** gadget is similar to the **Grouped Filter Results** gadget with the difference that it sums up **work logs** instead of numeric custom fields.

Work Log Report (by sumUp): JQL			
Project ↓	Jira Workflow Toolbox	Last Log for Jira	Σ
Decadis AG	2 days, 5 hours, 45 minutes	3 hours, 4 minutes	3 days, 49 minutes
Alana Grant		2 days, 2 hours	2 days, 2 hours
Jennifer Evans	3 hours	1 week	1 week, 3 hours
Mitch Davis	7 hours	2 hours, 25 minutes	1 day, 1 hour, 25 minutes
Vincent Wong	2 days, 4 hours	3 days	1 week, 4 hours
Σ	1 week, 1 day, 3 hours, 45 minutes	2 weeks, 7 hours, 29 minutes	3 weeks, 2 days, 3 hours

Summed work logs grouped by **Project**. Filter: **JQL**, Jan 1, 1970 - Mar 12, 2024

Configuration

What is the name of your gadget?

Add a **custom title** to the gadget for **easier identification**. If nothing is set, the title will be generated by combining the gadget name and the selected filter/ JQL.

Which issues do you want to analyze?

Select whether you want to use a **predefined JQL Filter** or a **custom JQL** to get the issues.

How do you want to group the results?

Select a field that will be used to **group** the **results**.

What time period would you like to view?

Only time logs of the **selected period** will be displayed.

Available options are:

- Last month
- Current month
- Last week
- Last two weeks
- Current week
- All
- Custom

If **Custom** is selected, you either can specify specific dates of format **YYYY-MM-DD** or relative dates:

Timerange

Custom

Select the timerange of worklogs.

From

-1m

Select the start date (YYYY-MM-DD) or enter a relative date (e.g. **-3m** for three month in the past. d = days, w = weeks, m = months, y = years)

To

0m

Select the end date (YYYY-MM-DD) or enter a relative date (e.g. **1w** for one week in the future. d = days, w = weeks, m = months, y = years)

How many rows do you want to display per page?

Choose how many results you want to display on your dashboard.

Refresh interval

Specify how often the gadget should be refreshed.

If **Never** is selected, the gadget will only be refreshed on page reload.
