## Issues due this week

As the leader of a development team, it is a daily responsibility to ensure that work is distributed effectively. Our Two Dimensional Filter Statistics gadget helps you keep track of it. In this example, you will learn how to use sumUp to get a weekly overview for each assignee.

As you can see, the gadget is configured to display the issues due this week per assignee. The total number of issues for each individual is displayed at the end of each row. Additionally, the number of issues due o $\mathbf{n}$ each day is shown at the bottom of the column. Finally, the total number of issues is displayed in the bottom right corner. The options to select a different time period are located at the top.

You can tweak the date options on top of the gadget at any time without breaking your configurations.

## Configuration

| Option | Settings |
| :--- | :--- |
| Which issues do <br> you want to <br> analyse? | Before Filter can be chosen, there has to be set <br> a Filter. For this project the Filter for KANBAN <br> board contains the whole project. |
| Which fields would <br> you like to display? | To count the issues select Issues. |
| Which field do you <br> want to see on the <br> x-Axis? | To group the data select Due Date. |
| Which field do you <br> want to see on the <br> y-Axis? | To display the number of issues per colleague <br> select the Assignee. |
| How many rows <br> do you want to <br> display per page? | If there are ten or fewer colleagues, the default <br> option of 10 rows is enough. |
| Choose additional <br> options | The gadget will automatically refresh when you <br> reload the page, even if Do you want to <br> refresh your data every 15 minutes? is not <br> selected. |
| If you want to have a direct link to the related <br> issues, select Do you want to include links to <br> the issue navigator? |  |

| Which time period <br> do you want to <br> display as default? | For a weekly overview select Current week. |
| :--- | :--- |
| Which default for <br> the date <br> aggregation level <br> do you choose? | To view each day separately, select Daily. |

:: Issues due this week

Which issues do you want to analyse? *
Filter for KANBAN board
$\checkmark$

Which field do you want to sum up? *
Issues

Which field do you want to see on the $x$-Axis? *
Due date

Which field do you want to see on the $y$-Axis? *

## Assignee

How many rows do you want to display per page? *
10

Choose additional options
