

# Use Case Library

The list below contains some use cases that can be realized with **sumUp for Jira**.

Check back from time to time as the number of use cases will grow over time.

## Use Cases and examples

Use Case	Gadget	Description
<a href="#">Comparison of Budget and Total Costs</a>	Grouped Filter Results	Compare previous year's budgets and costs on a quarterly basis.
<a href="#">Issues due this week</a>	Two Dimensional Filter Statistics	Displays how many issues are due for each assignee in the current week.
