

xCharts Release Notes 1.7.0

Release date	02 Sept 2019
Release type	FEATURES
Highlights	xChart Gadget+ supporting live parameters. Additional improvements.

Compatibility

- We are happy to announce that xCharts is now officially **compatible with Jira Data Center!**

New features

- Use the brand new **xChart Gadget+** to customize your charts right on the dashboard by using **live configuration parameters**

Bug fixes

- A vertical line appeared when hovering over the charts
- The layout name was not displayed after creating a new **data script chart**
- Links to **data scripts** disappeared when opening the pop-up dialog several times
- The horizontal line of the target value wasn't visible
- Table reports haven't been rendered correctly within **Confluence**
