Copy attachments from one issue to another

Features used to implement the example

- **Write field on linked issues or sub-tasks**
- **Read fields from linked issues or sub-tasks**

Example: Copy attachments from one issue to another one

Is it possible to copy attachments with **Write field on linked issues or sub-tasks** post-function?

I have just released version 2.0.18 of **Jira Workflow Toolbox** which includes two new writable virtual fields that allows you to copy attachments from linked issues and sub-tasks using post-functions **Write field on linked issues or sub-tasks** and **Read fields from linked issues or sub-tasks**. The new virtual fields are called:

- **Attachments (only new attachments will be added)**

- **Attachments (current attachments will be replaced)**

Depending on which of the virtual fields you select as target field, you can add the attachments of one issue to another one, or replace the attachments of one issue with the ones of the another issue.

Other examples of that functions

Write field on linked issues or sub-tasks

Page: Add and remove a single or a set of items from multi valued fields
Page: Automatically become watcher of every issue blocking an issue assigned to you
Page: Automatically close resolved sub-tasks when parent issue is closed
Page: Automatically resolve an epic when all its stories are resolved
Page: Compose dynamic text by inserting field values in a text template
Page: Copy "Due date" into a date type custom field in a linked issue if it's greater than current issue's "Due date"
Page: Copy attachments from one issue to another
Page: Create a comment in sub-tasks when parent transitions
Page: Creating a Jira Service Desk internal comment
Page: Creating a Jira Service Desk internal comment on linked issues
Page: Execute transition in epic
Page: Make linked issues, sub-tasks and JQL selected issues progress through its workflows
Page: Moving sub-tasks to "Open" status when parent issue moves to "In Progress"
Page: Sum sub-task's "Time Spent" (work logs) and add it to a certain linked issue
Page: Transition sub-tasks when parent is transitioned

Read fields from linked issues or sub-tasks

Page: Add all assignees of certain sub-task types to a "Multi-User Picker" custom field
Page: Add and remove a single or a set of items from multi valued fields
Page: Copy "Due date" into a date type custom field in a linked issue if it's greater than current issue's "Due date"
Page: Copy attachments from one issue to another
