Condition except assignee/reporter/project role

This function has been **renamed** with the **JWT 3.0** release.

Find the new documentation at:

Except assignee

Except reporter

User is not in project role

○	Except assignee (by JWT)	Only if issue is not assigned to current user.
○	Except reporter (by JWT)	Only if current user is not issue reporter.
○	Except users in a field (by JWT)	Users in selected field are not allowed to see or execute current transition.
○	Hide transition from user	Condition to hide a transition from the user. The transition can only be triggered from a workflow function.
○	No Open Reviews Condition	Transition to execute only if there are no related open Crucible reviews.
○	Only Assignee Condition	Condition to allow only the assignee to execute a transition.
○	Only Reporter Condition	Condition to allow only the reporter to execute a transition.
○	Only users in a field (by JWT)	Only the users in selected field are allowed to see and execute current transition.
○	Permission Condition	Condition to allow only users with a certain permission to execute a transition.
○	Sub-Task Blocking Condition	Condition to block parent issue transition depending on sub-task status.
○	Transition is triggered by Bulk Operation (by JWT)	Used for bypassing conditions when transition is being executed by a multiple issue modification (bulk operation).
○	Transition is triggered by JIRA Workflow Toolbox post-function (by JWT)	Used to hide transitions to users, but leave them available for execution by JIRA Workflow Toolbox post-functions.
○	Unreviewed Code Condition	Transition to execute only if there are no unreviewed changesets related to this issue.
○	User Is In Group	Condition to allow only users in a given group to execute a transition.
○	User Is In Group Custom Field	Condition to allow only users in a custom field-specified group to execute a transition.
○	User Is In Project Role	Condition to allow only users in a given project role to execute a transition.
○	User is not in project role (by JWT)	Only if current user is not in a project role.
