	Current assignee						Yes/No
	Reporter						Yes/No
	Project lead						Yes/No

Permission schemes

Permission schemes can be filtered by name or project. They also provide an ID. (See the table above).

Permission schemes

Add permission scheme

Permission Schemes allow you to create a set of permissions and apply this set of permissions to any project.

All permissions within a scheme will apply to all projects that are associated with that scheme.
The table below shows the permission schemes currently configured for this server. For permissions that apply to all projects see Global Permissions.

Learn more about project permissions

| ID	Name	Projects	Actions			
0	**Default Permission Scheme** This is the default Permission Scheme. Any new projects that are created will be assigned this scheme.	• Employee Onboarding • Finance Purchasing Requests • Financial Month End • Marketing Creatives • Teams in Space	Permissions	Copy	Edit
