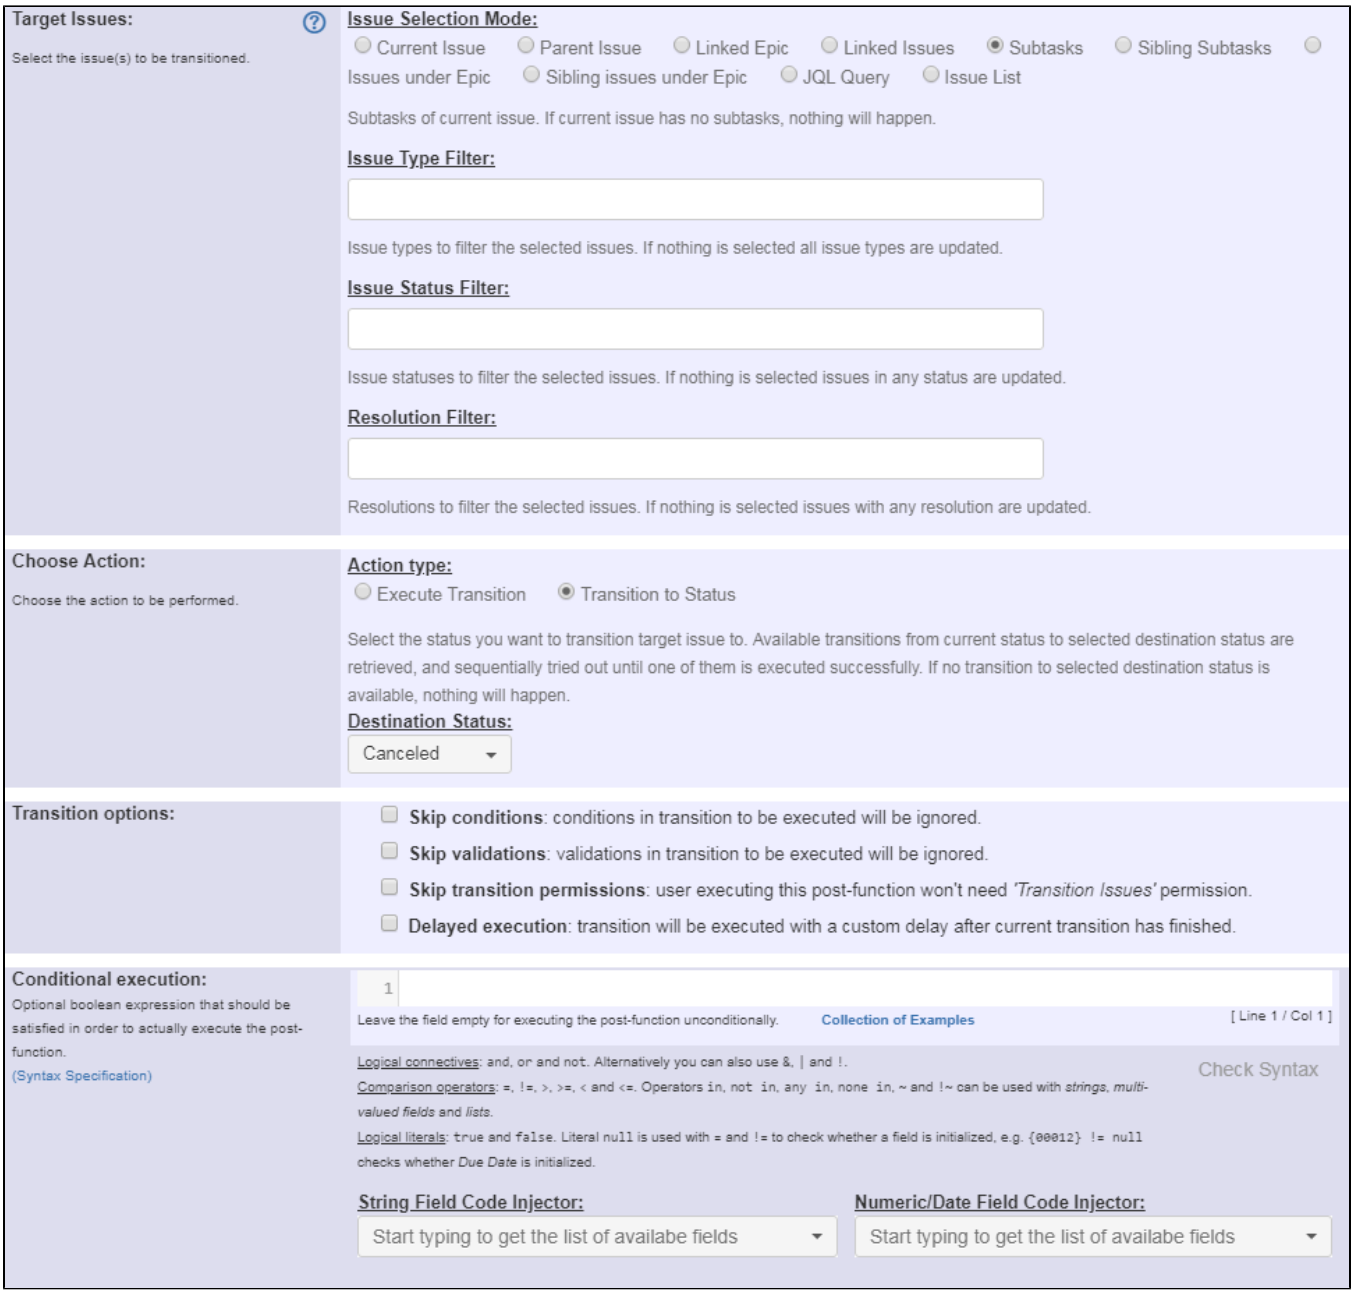
Features used to implement the example

- **Transition issues**

Example: Transition sub-tasks when parent is transitioned (Transition issues)

In this example all sub-tasks will be transitioned if parent get's transitioned. When parent issue get's transitioned to "**Canceled**", all sub-tasks should be transitioned to "**Canceled**", too.

For this the post function Transition issues will be implemented in the parent issue's workflow transition "**Cancel Issue**". The configuration will look like this:



Other examples of that function

Page: Automatically close resolved sub-tasks when parent issue is closed
Page: Automatically close resolved sub-tasks when parent issue is closed (Transition issues)
Page: Change parent's status depending on sub-task's summary
Page: Change parent's status depending on sub-task's summary (Transition issues)
Page: Moving story to "In Progress" when one of its sub-tasks is moved to "In Progress"
Page: Moving story to "In Progress" when one of its sub-tasks is moved to "In Progress" (Transition issues)
Page: Moving story to "Ready for QA" once all its sub-tasks are in "Ready for QA" status

Related Usage Examples
