## Improvements

- New settings allow you to define the maximum calculation time and the maximum number of issues to count.
- The values of **sumUp text custom fields** can now be displayed in Confluence gadgets.
- The new option "Show empty values" to specify whether to show "0" or no value (new default) if a sumUp custom field returns an empty result.
- Various performance optimizations.

## Bug fixes

- The option to sort by **sumUp text custom fields** was removed to prevent performance issues.
