Manage page templates

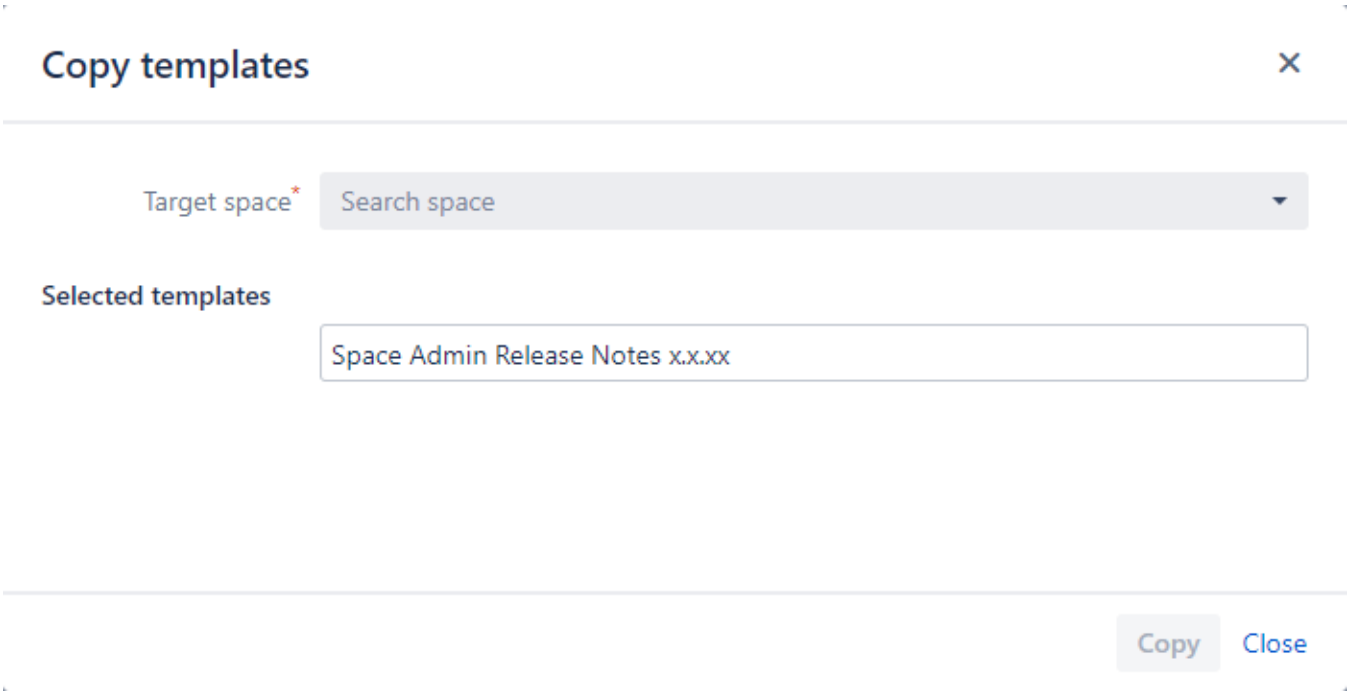

Copy templates

Copying templates can be done by choosing one of the following options:

- Right clicking on the template name and using the **context menu**
- Clicking the **Copy** button
- Using the "**Edit**" menu
- Pressing **c**.

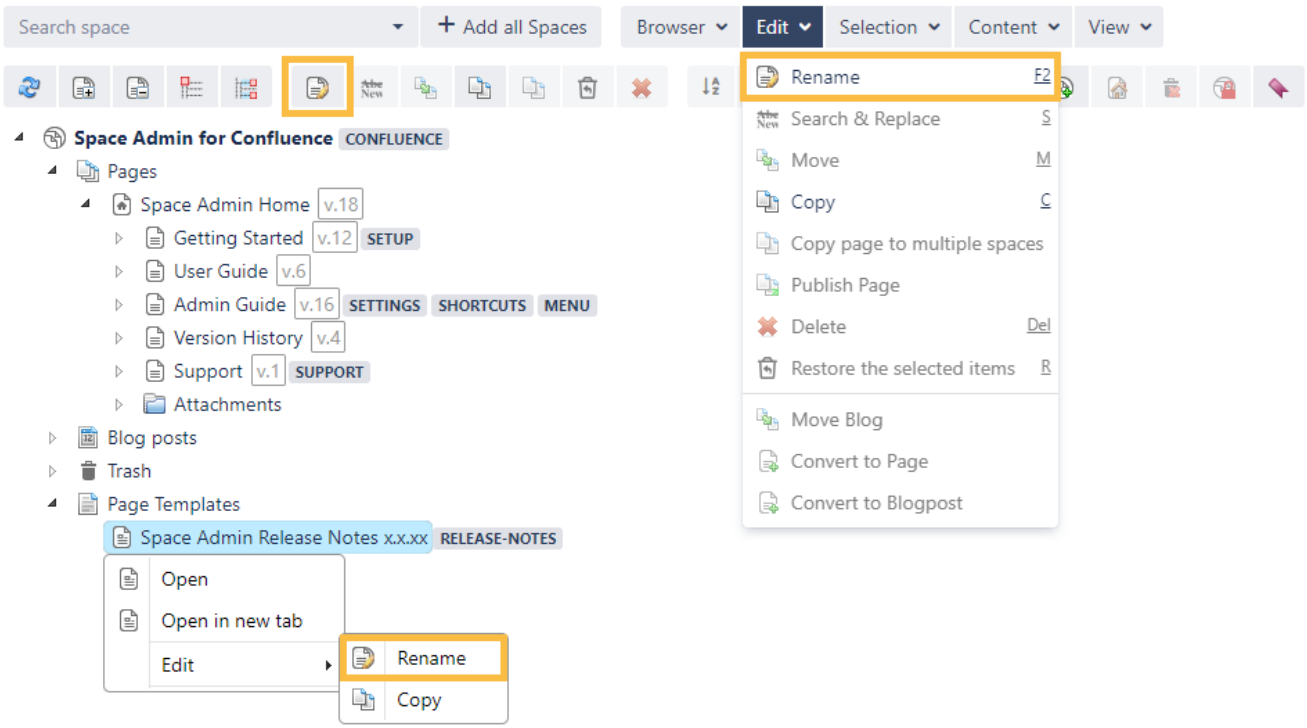

In the popup window the target space and the template name can then be set:

Rename templates

Renaming templates can be done by choosing one of the following options:

- Right clicking on the template name and using the **context menu**
- Clicking the **Rename** button
- Using the "**Edit**" menu
- Pressing **F2**.
