xCharts Release Notes 1.7.4

Release date	17 Oct 2019
Release type	MAINTENANCE
Highlights	

Improvements

- Added documentation regarding the **migration steps** that **may be required** to the upgrade from **d5 version 3.5.6** to **d5 version 5.11.0** (xCharts 1.7.2 and above)
- Renamed **Save button** from **Refresh** to **Save** on Resources, Data Script, and Layout pages
- Added support for using built-in charts **Top 10 Commenter** and **Top 10 Reporter** multiple times on the same **dashboard**

Bug fixes

- Jira Dashboards did not work using **Internet Explorer 11** with xCharts installed
- Rendering **scripted charts** with added table on a **dashboard** could result in wrong gadget sizing
