

Fast-track transition issues assigned to the project lead

On this page

[Configuration](#) | [Screenshots](#) | [Related use cases](#)

Use case

Workflows can be used guide tickets through your work process. But under specific circumstances you might want to skip some workflow steps.

In the following use case a newly created issue gets directly transitioned to **In Progress**, if the **ticket is assigned to the project lead**.

Configuration

1

Add the [Transition issue](#) post function to the **create transition** of the desired workflow.

2

Target issue

Choose **Current issue**

3

Mode

Choose **Transition to status**

4

Choose **In Progress** as the status to be transitioned to.

5

Conditional execution

```
%{issue.assignee} = %{issue.project.lead}
```

By using this conditional execution, the fast tracking does only take place, if the issue is assigned to the project lead.

Update parameters of the Transition issue Function for this transition.

Update parameters of the Transition issue Function for this transition.

Basic configuration*

Define the required parameters needed to execute this post function.

Target issue*

Current issue

Select the issues to be updated.

Mode*

Transition to status

Select the transition to be executed or the status to be transitioned to.

In Progress

Select the status to be transitioned to.

Additional options

Conditional execution

The post function will only be executed if the following condition (a logical expression) is met.

Expression

```
1 %{issue.assignee} = %{issue.project.lead}
```

The expression must return `true` or `false`.

Run as

Transition issue

Documentation

Transition any issue to any available target statu
