daysInTheMonth()

This function returns the **number of days in a month** of **any given timestamp**.

Syntax
`daysInTheMonth(timestamp, timeZone) #Output: Number`

Examples

Parser expression	Description
`daysInTheMonth({issue.dueDate}, LOCAL)`	This example returns the available days in the month of the issue's due date. If the due date was set to **March 25th, 2020**, the output would be **31**.

Additional information

Parameters used in this function

Parameter	Input (data type)	Description
`timestamp`	NUMBER	The parameter must be valid **timestamp**. Usually this value is retrieved from a field (e.g. due date, created date).
`timeZone`	TIMEZONE	The **time zone** used for the calculation.

Output

This function returns a NUMBER
