

Add to time spent (minutes)

Field code
No field code

 Write

Valid text input	Cast from text to number will be attempted
Valid numerical input	Number of minutes to be added ⓘ
Example input	60

Adds a **number of minutes** to the current value of the field "**Total time spent (minutes)**".

This field can only be updated under **certain** circumstances. The most common examples are:

- [Update or copy field values](#) post function for **workflows**
- [Update field action](#) for **automation rules**

Input	Description
60	Increases time spent by 1 hour.
- 60	Decreases the time spent by 1 hour.
- {issue.cf10000}	Decreases time spent by the amount of minutes stored in custom field with ID 10000 .

If you need to add time to the **parent** of the current issue, please use [Add to parent's total time spent \(minutes\)](#).
