sumUp calculation rows

sumUp's processing power can be used in **various places** within Jira!

One **major feature** of sumUp is the **calculation row.**

Σ	5	62	11	19	3	0	100
Σ	**96**	**992**	**11**	**613**	**16**	**4**	**1732**

Take a look at the following pages to see the calculation row in action.

- Issue Navigator
- Jira Software Boards
- Service Management Queues
