

Attachments (current attachments will be replaced)

Field code
No field code

 Write

Valid text input	Comma- or blank-separated list of issue keys
Valid numerical input	
Example input	CRM-2, HR-34, HR-50

Replaces the current's issue **attachments** with those retrieved from the **specified** issues.

This field can only be updated under **certain** circumstances. The most common examples are:

- [Update or copy field values](#) post function for **workflows**
- [Update field action](#) for **automation rules**

Input	Description
CMR-1	Replaces all current attachments with the ones copied over from CRM-1.
CRM-2, HR-34, HR-50	Replaces all current attachments with the ones copied over from CRM-2, HR-34 and HR-50.

If you want to simply copy over attachments **without replacing** existing ones, see [Attachments \(only new attachments will be added\)](#).
