All sub-tasks must be Done or Closed

On this page

Use case

This simple use case ensures, that **all sub-tasks** of the current issue are in the workflow status **Done** or **Closed**.

You can either **hide** the transition using the Condition on sub-tasks or **block** the transition using the Validation of sub-tasks.

⚙ Configuration

1 Add the **condition** or the **validator** to the desired transition or create a new transition.

2 **Filter by issue type**

Choose **sub-task**.

3 **Filter by status**

Choose the statuses **Done** and **Closed**.

4 **Filter by resolution**

Choose the desired resolution to evaluate, e.g., **Unresolved**.

The following parameters are **only available**, if you are configuring this use case as a **validator**.

Validator only

1 **Error message**

All sub-tasks must be Done or Closed before this transition is available.

Update parameters of the Condition on sub-tasks Condition for this transition.

Update parameters of the Condition on sub-tasks Condition for this transition.

Basic configuration *

Filter by issue type *

| 🟦 Sub-task ✕ | ⊗ ⌄ |

Only issues matching the selected issue types will be evaluated.

Filter by status *

| Closed ✕   Done ✕ | ⊗ ⌄ |

Only issues matching the selected statuses will be evaluated.

Filter by resolution *

| Unresolved ✕ | ⊗ ⌄ |

Only issues matching the defined resolutions will be evaluated.

Filter by field value

| ✅ 🟦 1 |

Only issues where the field values match the provided logical expression are allowed.

Minimum number of sub-tasks *

| 0 | ⇕ |

Specify the minimum number of sub-tasks that need to satisfy the specified filter criteria.

Maximum number of sub-tasks *

| 1000 | ⇕ |

Specify the maximum number of sub-tasks that need to satisfy the specified filter criteria.
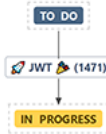

❯ Additional options

Condition on sub-tasks ⚙️

Documentation 🔗

Evaluate the current state (type, status, number, etc.) of sub-tasks.
