All sub-tasks with a resolution of Done must be in a specific status

Use case

This use case ensures, that **all sub-tasks**, which have a resolution value of **Done** must be in a specific status, e.g. **Closed**.

You can either **hide** the transition using the Condition on sub-tasks or **block** the transition using the Validation of sub-tasks.

⚙️ Configuration

1   Add the **condition** or the **validator** to the desired transition or create a new transition.

2

Filter by status

Choose **Closed**

3

Filter by resolution

Choose **Done**

Additional options

4

Allow unselected issue types

Check this option to skip the issue type filter.

5

Allow unselected resolutions

Check this option.

> Checking this option ensures that issues with **other resolutions** are **not** being **considered / analyzed** since you only want to analyze issues with a resolution value of **Done**.

The following parameters are **only available**, if you are configuring this use case as a **validator**.

Validator only

1   **Error message**

```
There are sub-task which have a resolution value of Done which are not closed.
```

Screenshots

Update parameters of the Condition on sub-tasks Condition for this transition.

Update parameters of the Condition on sub-tasks Condition for this transition.

Basic configuration *

Filter by issue type

Sub-task ✕

Only issues matching the selected issue types will be evaluated.

Filter by status *

Closed ✕

Only issues matching the selected statuses will be evaluated.

Filter by resolution

Done ✕

Only issues matching the defined resolutions will be evaluated.

Filter by field value

✅ 🔧 1

Only issues where the field values match the provided logical expression are allowed.

Minimum number of sub-tasks *

0

Specify the minimum number of sub-tasks that need to satisfy the specified filter criteria.

Maximum number of sub-tasks *

1000

Specify the maximum number of sub-tasks that need to satisfy the specified filter criteria.

Additional options

☑ **Allow unselected issue types**

Sub-tasks of unselected issue types will be allowed regardless of their state. This option must be checked, if the issue type filter should be ignored.

☐ **Allow unselected statuses**

Sub-tasks in unselected statuses will be allowed regardless of their state. This option must be checked, if the status filter should be ignored.

☑ **Allow unselected resolutions**

Sub-tasks with unselected resolutions will be allowed regardless of their state. This option must be checked, if the resolution filter should be ignored.

☐ **Allow unsatisfied field value filter**

Sub-tasks not matching the defined field values will be allowed regardless of their state. This option must be checked, if the field value filter should be ignored.

Condition on sub-tasks

Documentation 🔗

Evaluate the current state (type, status, number, etc.) of sub-tasks.
