

Archived Projects

SINCE JIRA 7.9.0 and **SINCE VERSION 2.9.0** , projects can be **archived** when using the **Data Center** version **only** of either Jira software or Jira Service Management.

Archived projects will be listed in a separate tab by default.

Since the list grows over time, you have the option to further filter it using the filter options provided by Admin Toolbox for Jira. (See table below).

Searchable items

Filter by	Searchable items						
	ID	Display name	Key	Name	Project category	Project type	User name
Name	✓		✓	✓			
Project category					✓		
Project lead		✓					✓
Project type						✓	

If the list returns too many projects, it will be **paginated**.
