Admin Toolbox Release Notes 2.9.0

Release date	22 Nov 2019
Release type	FEATURES MAINTENANCE
Highlights	Filters for **priority schemes**

New features

- Filters are now available for **priority schemes**

Bug fixes

- Project filter did not work properly for **archived projects**
- Sorting **workflow conditions** did not work as expected
- Editing global reflexive transitions in the **Workflow Report** page pointed to a dead link
- Filter dropdown UI was broken since **Jira 8.4.2**
- Filter by name did not work properly for **field configuration schemes**
- Filter by project did not work properly for **issue security schemes** when no projects were selected
