There are several ways to navigate to **Space Admin Browser**
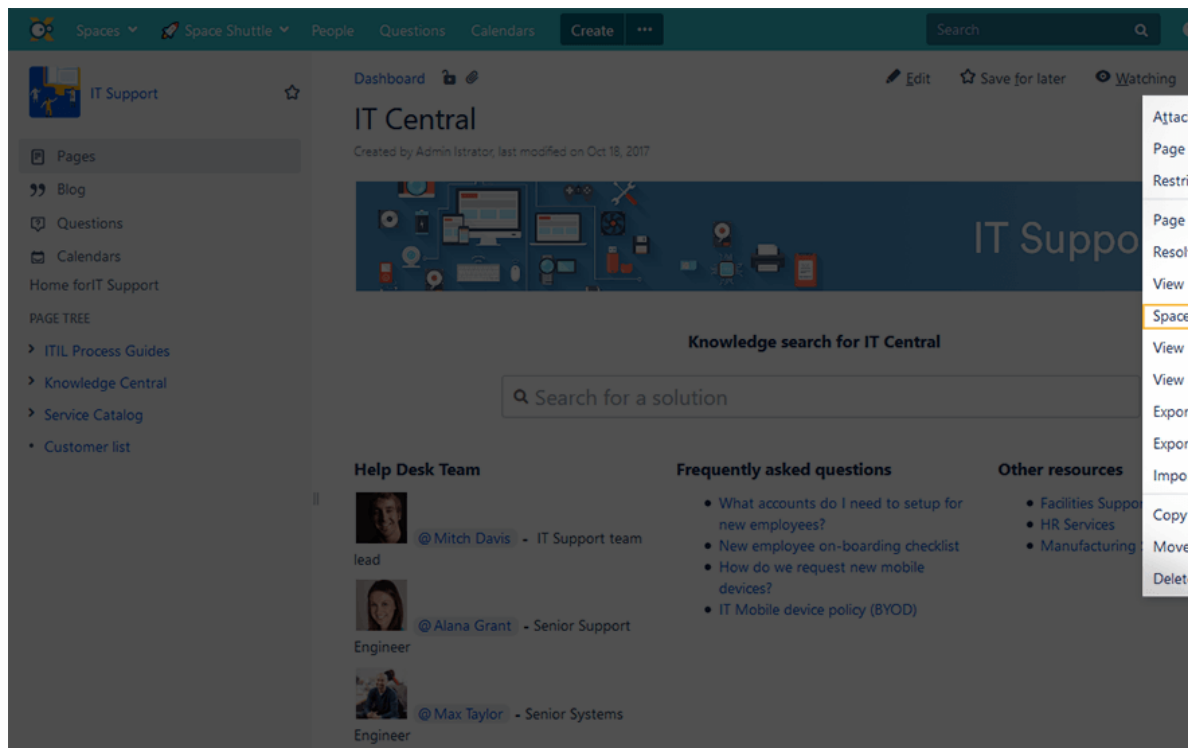

1   **Via administration**

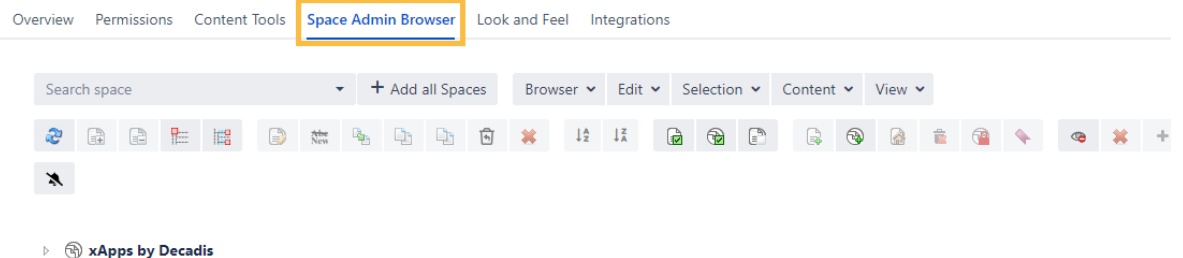

2   **Via the page's task menu**

(3) **Via space tools**

> You can access the Browser via space tools by simply pressing **b** on your keyboard.
> Check the following table for more helpful shortcuts.

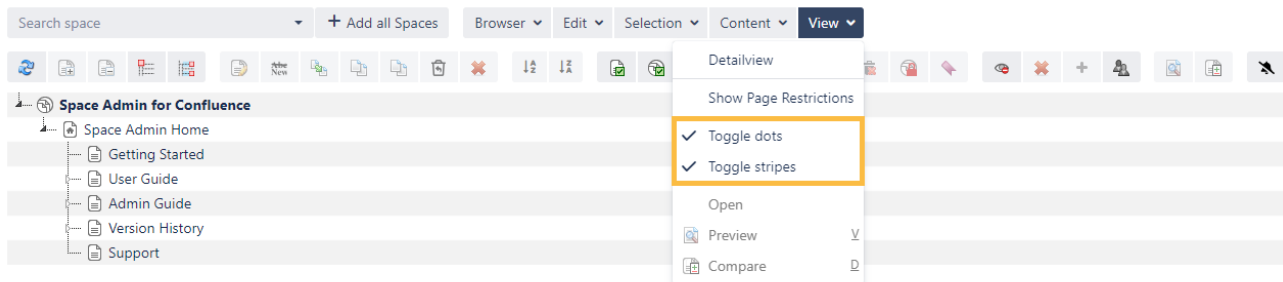

(4) **SINCE VERSION 2.2.0** , it is also possible to directly head over to the **Space Admin Browser** by clicking on "**option**" in the Space tools menu:

Modifying the tree layout

In the Space Admin Browser it is possible to toggle the view of a space tree.

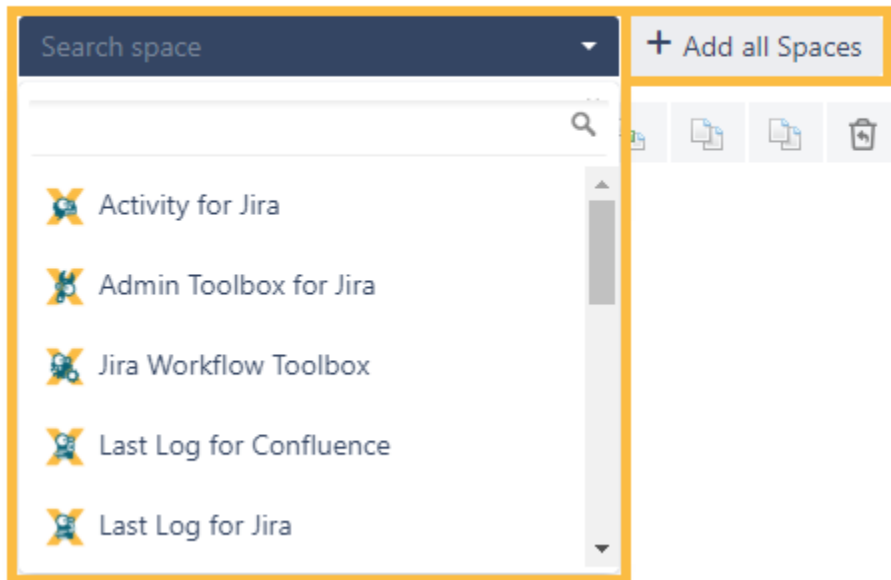

It is possible to:

- toggle the **dots** in front of the item names
- toggle the **stripes**.

Adding a space to the Space Admin Browser

Adding a space to the Space Admin Browser can be done via the drop-down menu in the upper toolbar. It can also used to search for spaces by typing in their names.

All spaces can be added by clicking the **Add all Spaces** button.

To save time and get things done quickly, check the following page for helpful shortcuts.
