

Manage page templates

Copy templates

Copying templates can be done by choosing one of the following options:

- Right clicking on the template name and using the **context menu**
- Clicking the **Copy** button
- Using the **"Edit"** menu
- Pressing **c**.

In the popup window the target space and the template name can then be set:

Copy templates

Target space*

Search space

Selected templates

Space Admin Release Notes x.x.xx
