

Advanced Roadmaps for Jira (formerly Portfolio for Jira)

[Advanced Roadmaps \(formerly Portfolio\)](#) is an app that lets you keep track of your agile roadmaps and plans directly within Jira.

It lets you see the big picture and track your processes.

sumUp supports several of their provided **custom fields**.

Prerequisites

- sumUp for Jira Cloud must be installed
- Advanced Roadmaps for Jira must be installed

Using Advanced Roadmaps custom fields in dashboards

Once a roadmap is configured and the custom fields are used, they can be added to our [gadgets](#) to display all relevant data.

💡 Not only displaying but also **grouping** by Advanced Roadmaps' custom fields is possible!

Filter Results (by sumUp)					
T	Key	Summary	Team	Parent Link	Start date
	SOF-1	Release 1.0	General project team	 SOF-15 Very important initiative	08/Feb/21
	SOF-2	Marketplace Updates	General project team		08/Feb/21
	SOF-3	Documentation Updates	General project team		08/Feb/21
	SOF-4	Ui Redesign	Frontend team		08/Feb/21
	SOF-5	Change screenshots	General project team		08/Feb/21
	SOF-6	Update text	General project team		08/Feb/21
	SOF-7	Add screencast	General project team		08/Feb/21
	SOF-8	Add release notes	General project team		08/Feb/21
	SOF-9	Remove old screenshots	General project team		08/Feb/21
	SOF-10	Prepare instance for screenshots	General project team		08/Feb/21
