sumUp calculation rows

sumUp's processing power can be used in **various places** within Jira!

One **major feature** of sumUp is the **calculation row.**

Σ		5	62	11	19	3	0	100
Σ		96	992	11	613	16	4	1732

Take a look at the following pages to see the calculation row in action.

- Issue Navigator
- Jira Software Boards
- Service Management Queues
- Botron's Issue Matrix
