Resolution must be empty

On this page

Use case

In the following use case the transition can only be executed, if the resolution is not set.

⚙ Configuration

1 Add the condition or validator to the desired transition or create a new transition.

2 **Field**

Choose **Resolution** and select **must be empty**

The following parameters are **only available**, if you are configuring this use case as a **validator**.

Validator only

1 **Error message**

```
The resolution must be empty in order to proceed.
```
