Minimum rest break duration

Minimum rest break duration

Breaks will only be counted as such, if they **match** or **exceed** the number of minutes specified here.

According to some local **laws and policies**, breaks must have a defined minimum length of for instance 15 minutes. Breaks between two worklog entries that are shorter will not be counted as breaks.

Will be counted as a break (duration >= 15m) ✓			Will not be counted as a break (duration < 15m) ✗

By **default** this value is set to **15 minutes**.

German law

§ 4 Arbeitszeitgesetz (ArbZG)

Ruhepausen

Die Arbeit ist durch im voraus feststehende Ruhepausen von mindestens 30 Minuten bei einer Arbeitszeit von mehr als sechs bis zu neun Stunden und 45 Minuten bei einer Arbeitszeit von mehr als neun Stunden insgesamt zu unterbrechen. Die Ruhepausen nach Satz 1 können in Zeitabschnitte von jeweils mindestens 15 Minuten aufgeteilt werden. ([Settings](#))

Länger als sechs Stunden hintereinander dürfen Arbeitnehmer nicht ohne Ruhepause beschäftigt werden.

Work days

Work days

Define your company's **working** days. This setting, in addition to the Tempo holiday settings, specifies which days to count as non-working.

The [No logs on non-working days \(read-only\)](#) rule builds on this configuration to make sure users do not log time during these days.

By **default** this value is set to **Monday** to **Friday**.

If you still have questions, feel free to refer to our [support](#) team.
