

Filter Results gadget (by sumUp)

What does this gadget offer?

The **Filter Results (by sumUp)** gadget is similar to the built-in Jira Filter Results gadget extended by a **calculation row showing totals**.

Filter Results (by sumUp): My new awesome gadget!						
Issue Type	Key	Summary	Priority	Story Points	Time Spent	
	TIS-105	Afterburner revision V automation		3	1 week	
	TIS-110	Afterburner revision VI automation		12	2 days, 30 minutes	
	TIS-98	Afterburner revision IV demo		2	4 days	
	TIS-97	Afterburner revision IV prototype		5	1 week, 3 days	
	TIS-103	Afterburner revision V demo		5	2 days	
	TIS-104	Afterburner revision V script		5	1 day	
	TIS-106	Afterburner revision VI design		20	2 hours	
	TIS-107	Afterburner revision VI prototype		5	3 hours	
	TIS-108	Afterburner revision VI demo		3	1 hour, 20 minutes	
	TIS-109	Afterburner revision VI script		12	4 days, 1 hour

Σ -	-	-	-	75.0	224.17h	

 Configuration

Which is the name of your gadget?

Add a **custom title** to the gadget for **easier identification**. If nothing is set, the title will be generated by combining the gadget name and the selected filter/ JQL.

Which issues do you want to analyze?

Select whether you want to use a **predefined JQL Filter** or a **custom JQL** to get the issues.

Which fields would you like to display?

Add fields to be displayed as **columns** and reorder them using **drag** and **drop**.

The **sum/ average** of a field will only be displayed, if a **calculation rule** has been created.

If there are multiple calculation rules for a single field, they all are selectable from the dropdown list.

The field name will be written in **parentheses behind the rule name**.

Av **Story** Points (Story Points)

Ø **Story** Points (Story Points)

Σ **Story** Points (Story Points)

Sorting rows

It is also possible to **sort** the rows in **ascending** and **descending** order by clicking on the table header.

⚠ However, sorting for non-indexed fields is disabled. This includes:

- sumUp [custom fields](#)
- [Jira Workflow Toolbox](#) custom fields
- [Script runner](#) fields

how many rows do you want to display per page?

Choose how many results you want to display on your dashboard.

Refresh interval

Specify how often the gadget should be refreshed.

If **Never** is selected, the gadget will only be refreshed on page reload.

If you still have questions, feel free to refer to our [support](#) team.
