Work Log Report gadget

What does this gadget offer?

The **Work Log Report** gadget is similar to the **Grouped Filter Results** gadget with the difference that it sums up **work logs** instead of numeric custom fields.

Configuration

What is the name of your gadget?

Add a **custom title** to the gadget for **easier identification**. If nothing is set, the title will be generated by combining the gadget name and the selected filter/ JQL.

Which issues do you want to analyze?

Select whether you want to use a predefined JQL Filter or a custom JQL to get the issues.

How do you want to group the results?

Select a field that will be used to group the results.

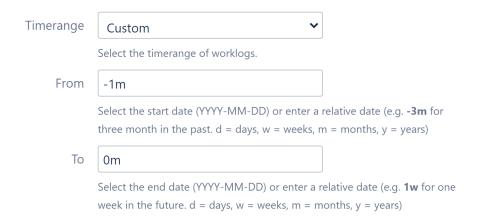

What time period would you like to view?

Only time logs of the selected period will be displayed.

Available options are:

- Last month
- · Current month
- Last week
- Last two weeks
- Current week
- All
- Custom

If Custom is selected, you either can specify specific dates of format YYYY-MM-DD or relative dates:

How many rows do you want to display per page?

Choose how many results you want to display on your dashboard.

Refresh interval

Specify how often the gadget should be refreshed.

If **Never** is selected, the gadget will only be refreshed on page reload.
