

## \_snip\_bulk\_space\_actions

Many of the actions you can perform on individual **spaces** as **bulk actions**.

Simply browse to the [space navigator](#) and **select** multiple spaces as if you were selecting multiple files in a file explorer.

- **Windows users:** hold the **CTRL** key and select the entities or select an entity and hold the **shift** key for faster multiple selections
- **Mac users:** hold the **command (cmd)** key and select the desired entities.

After selecting the spaces, right-click on one of the selected items and you will see all available bulk actions.

Select a **single** space and **hold the shift key** while selecting another space for a quicker selection of all pages in between.
