Who created or updated a workflow rule?

Why did the execution of my workflow rule fail last time?

Enhance the built-in Jira audit log with the information you really need when troubleshooting workflow configurations with the brand new [Audit log \(JWT\)](#)!

Capabilities

- Lists all creations, updates, and executions of your workflow rules
- Tracks the results of your workflow executions and provides details for troubleshooting
- Contains a handy search to narrow down specific log entries

Do you have ideas for additional improvements? Many new features in our products result directly from customer feedback.

So [get in touch](#) or tweet us at [@xAppsByDecadis](#) to share yours.
