

Remaining estimate (minutes)

Field code
<code>{issue.remainingEstimate}</code>

 Read

Returned value	Remaining estimate in minutes
Output data type	<div>NUMBER</div>
Example output	120

 Write

Valid text input	Cast from text to number will be attempted
Valid numerical input	Number of minutes
Example input	30

Sets the **remaining estimate**.
The field **value** can also be **increased** or **decreased** e.g. by the function [Update issue fields](#).

Input	Description
<code>{issue.remainingEstimate} + 60</code>	Adds 60 minutes to the current value of the remaining estimate.
<code>{issue.remainingEstimate} - {issue.cf10000}</code>	Decreases the current value by the number (of minutes) found in the custom field with the ID 10000 .

If you need the output as **text**, simply add **%** in front of the field code or directly **insert** the field code as text.
