

# daysInTheMonth()

This function returns the **number of days in a month** of any given timestamp.

## Syntax

```
daysInTheMonth(timestamp, timeZone) #Output: Number
```

## Examples

Parser expression	Description
<pre>daysInTheMonth({issue.dueDate}, LOCAL)</pre>	<p>This example returns the available days in the month of the issue's due date.</p> <p>If the due date was set to <b>March 25th, 2020</b>, the output would be <b>31</b>.</p>

## Additional information

Parameters used in this function

Parameter	Input (data type)	Description
timestamp	NUMBER	The parameter must be valid <b>timestamp</b> . Usually this value is retrieved from a <a href="#">field</a> (e.g. due date, created date).
timeZone	TIMEZONE	The <b>time zone</b> used for the calculation.

## Output

This function returns a NUMBER
