

# Admin Toolbox Release Notes 2.11.3

Release date	27 Jan 2022
Release type	MAINTENANCE
Highlights	Maintenance release

## Improvements

- [Custom filters for screens](#) are now available within a dedicated 'Advanced' tab for Jira 8.19 and above
- The [workflow report](#) now returns keys for custom workflow functions that can be used for searching

## Bug fixes

- [Switching users](#) did not work for Jira 8.21
- Custom field options could not be reordered under some circumstances
- Some functionality was missing when editing inactive workflows
- Fixed a couple of minor UI issues
