

Timesheet Check release notes 1.1.0

Release date	08 Mar 2022
Release type	NEW FEATURES
Highlights	New rules for your timesheet check

New features

- Define a **specific timeframe** in which users are **allowed to log time** with the new [working hours](#) metric
- Define the **minimum or maximum length** of a regular **working week** with the new [working week](#) metric
- Validate whether a user has logged at least the required amount of hours within a given period with the new [completed timesheet](#) (read-only) rule

Improvements

- Reports can be accessed using the **Apps** drop-down in the top navigation bar
- The [settings page](#) comes with a new design

Bug fixes

- Reports did not show user names when using Tempo teams
- Several minor UI bug fixes

Do you have ideas for additional improvements? Many new features in our products result directly from customer feedback.
