

Update the sub-task's assignees by the current issue's value

On this page

[Configuration](#) | [Related use cases](#)

Use case

In the following use case the **assignee** of the **current issue** will be **copied** to all **sub-tasks**.

Configuration

1

Add the [Update linked issue or sub-task](#) post function to the desired transition or create a new transition.

2

Fields

1

Click on **Add field**

Choose **Assignee**

2

Value

Choose **Copy field value form current issue**

3

Click on **Add**

3

Filter

Update the following filters according to your needs.

1

Filter by [issue type](#)

Choose **Sub-task**

4

Additional options

1

Check the option **Update sub-tasks matching the specified filter criteria**
