

Copy the due date from the current issue to blocking issues

On this page

[Configuration](#) | [Related use cases](#)

Use case

Issue links in Jira are a helpful tool to keep track of changes throughout different issues.

In the following use case the **due date** of the **current issue** will be **copied** to all **blocking issues**.

Configuration

1

Add the [Update linked issue or sub-task](#) post function to the desired transition or create a new transition.

2

Fields

1

Click on **Add field**
Choose **Due date**

2

Value
Choose **Copy field value form current issue**

3

Click on **Add**

3

Filter

Update the following filters according to your needs.

1

Filter by link type
Choose **is blocked by**
