

Reorder transitions with drag and drop

SINCE VERSION 2.8.0

Sort workflow transitions in a drag and drop fashion. Admin Toolbox takes care of the updates to the [op-sbar-sequence](#) properties in the background.

Workflows

Software Simplified Workflow for Project ONE DRAFT USED BY 1 PROJECT

Generated by JIRA Software version 9.4.0. This workflow is managed internally by Jira Software. Do not manually modify this workflow.

You are editing a draft. There are unpublished changes.

MADE WITH GIPOL

Transitions can only be sorted if the workflow is in edit mode (inactive or draft).

Sorting transitions

The workflow's transitions can be sorted by hitting the **Sort** button in the dropdown menu.

Generated by JIRA Software version 9.4.0. This workflow is managed internally by Jira Software. Do not manually modify this workflow.

i You are editing a draft. There are unpublished changes.

In the opening popup window, the transitions can either be sorted via **drag and drop**, via entering the **opsbar-sequence** directly or via changing the opsbar-sequence using the buttons next to the sequence number.

Sort Transitions

Step Name (id)	Transitions (id)		opsbar-sequence
Open (1)	 Start Progress (11)	DRAFT	
	 Close issue (111)	CLOSED	
In Progress (2)	 Ready for Testing (51)	CODE REVIEW	
	 Stop Progress (21)	OPEN	
	 Close issue (111)	CLOSED	
Closed (5)	 Code Review Failed (101)	CODE REVIEW	
	 Reopen (41)	OPEN	
	 Close issue (111)	CLOSED	
Code Review (6)	 Code Review Passed (91)	CLOSED	
	 Back to in progress (81)	DRAFT	
	 Close issue (111)	CLOSED	

[Save](#) [Cancel](#)

When selecting one transition, that is reused in more steps, they will be highlighted in the same color.

Same transitions (with the same id) in different steps will always have the same opsbar-sequence number. If one number gets changed in a step, all other sequence numbers in the other steps will be changed as well.

Sort Transitions

Step Name (id)	Transitions (id)	opsbar-sequence
Open (1)	Start Progress (11) DRAFT - <input type="text" value="0"/> +	
	Close issue (111) CLOSED - <input type="text" value="0"/> +	
In Progress (2)	Stop Progress (21) OPEN - <input type="text" value="0"/> +	
	Ready for Testing (51) CODE REVIEW - <input type="text" value="0"/> +	
	Close issue (111) CLOSED - <input type="text" value="0"/> +	
Closed (5)	Reopen (41) OPEN - <input type="text" value="0"/> +	
	Code Review Failed (101) CODE REVIEW - <input type="text" value="0"/> +	
	Close issue (111) CLOSED - <input type="text" value="0"/> +	
Code Review (6)	Back to in progress (81) DRAFT - <input type="text" value="0"/> +	
	Code Review Passed (91) CLOSED - <input type="text" value="0"/> +	
	Close issue (111) CLOSED - <input type="text" value="0"/> +	

[Save](#) [Cancel](#)

After sorting the transitions and publishing the workflow, the updated order will be displayed in the issues using the specific workflow.

Intuitive transition display

You can select, in the text view of a workflow configuration, whether you want the transitions to be displayed in their sorted order.

When this option is selected, the transitions will also be formatted in a more intuitive manner.

This option does not affect the order of appearance in the issue.
