

# Send email with the URL of the attachments included in the description

On this page

[Configuration](#) | [Related use cases](#)

## Use case

Send links to attachments whose names are included in the description of the issue in the body of an email.

## Configuration

1

Add the [Send email](#) post function to the desired workflow transition or create a new transition.

2

Define the **basic configuration** with the required and information you need to fill in for your email.

## Email content

1

### Subject

Enter a plain text and optionally use [Field codes](#) for the subject of your email.

2

### Email format

Choose **HTML**

3

### Body

Enter the following expression.

```
{{replaceAll(toString(attachmentUrls(findPattern({issue.description}, "\\w+).(docx|pdf|png|jpg)+")), ", ", "\\n")}}}
```

It is strictly necessary that these files are attached to the issue that executes the transition. Otherwise, the expression will not work.
