

Admin Toolbox Release Notes 2.12.1

Release date	07 Nov 2022
Release type	<div>MAINTENANCE</div>
Highlights	Maintenance release

Bug fixes

- The pagination in the [projects table](#) was shown twice if you selected the advanced tab in Jira 9.3.0.
- An error was thrown in the [Bulk changes](#) when performing a clear-all action and closing the project picker.
- The calculated numbers for post function, validators, and conditions were not clickable in the [Workflow report](#).
