Add formatted comments automatically

On this page

Use case

Add a formatted comment to the **current issue**.

It would be convenient in case that you need to **create a table** or **highlight some important points** in the comment.

⚙ Configuration

① **Target issue***

Choose **Current issue**

---

② **Comment text***

Write a comment with the notations of the article Text Formatting Notation Help as the following one.

```
Dear [~%{system.currentUser}],

We are glad that you want to *set an appointment* with us. Here you will find all of the
relevant information to set the appointment.

h2. Consultation time of our agents.

||Name||M-F||Saturday||
||Martha|9-17|10-12|
||Charles|9-17|12-14|
||Joshua|9-13|9-15|

----

This service will be available temporarily only for people in the following locations:
* Spain,
* United States (only in the following states),
** California,
** New York,
* Germany.

----
You can set the appointment via mail ([mailto:appointmentsemail@atlassian.com]) or in the
website [Appointments Website|http://atlassian.com]
{color:red}
You will not be able to postpone the appointment more than once after it is set.
{color}
```

Comment author*

3

Select **Assignee**.

4

Comment visibility*

Choose **unrestricted (all users)**.
