

# Track work hours and revenue by status

## Use case

If you want to **track work hours and revenue by status**, you can quickly configure a **Group by widget** to show these metrics with sumUp for [monday.com](#).

By creating a widget to group these metrics by the status of the tasks, you can view the summed up work hours and revenue for all tasks with a status of "Working on it", "Done" and "Stuck". This helps you to gain a quick overview of the overall status and progress of your project.

Project Items - Status Summary

Status	Work Hours	Revenue	Items
Working on it	7	3000	2
Done	10	3000	1
Σ	17 27	6000 7200	3 5

< 1 2 >

Settings

## Configuration

1

Add the **Group by widget** to your dashboard via **+ Add widget > Apps > Installed Apps**.

2

Select the **columns you want to report** under **Which columns you want to display?**

Add two columns of the data type Numbers logging work hours and revenue per task.

3

Select your **region** column under **How to group the items?**

---

Optionally configure **Additional options** to control the **number of rows** per page, the **number of minutes** between widget **updates** and whether or not to show a column including the **item count**.
